Two-room apartments over two floors

In a house with five apartments we ask two apartments on the ground floor. Each apartment has its own entrance from the property. One apartment is 98 m² and the second 110 m². Both apartments are spread over two floors, while the ground floor is the living room with balcony, bathroom and kitchen. On the second floor are two bedrooms with a bathroom and a balcony. Each apartment has a parking space. On request, a garage can be created, which is not included in the purchase price.
